Pre-Catalyzed Clear Sealers

Becker Acroma

# Becker Acroma

## Pre-Catalyzed Clear Sealers

Pre-catalyzed clear sealers from Becker Acroma were formulated to provide the ideal foundation for our pre-catalyzed clear finishes. These sealers come ready-to-spray, and like the pre-catalyzed topcoats they have good workability with easy application properties and excellent sandability. Fast drying with a built-in hardener that activates on application, Becker Acroma provides a range of sealers suitable for use on most interior wood substrates.

### Care Seal Pre-Catalyzed Clear Sealer – FL5312000

A pre-catalyzed and pre-reduced sealer, Care Seal enhances the topcoat with excellent sandability and UV absorbers that protect the wood from natural discoloration. For use on most interior wood substrates, Care Seal is an excellent foundation for the Becker Acroma pre-catalyzed clear topcoats. Care Seal is formulated with HAPs-free solvents.

- Easy to Apply
- Excellent Sandability
- Dries Fast
- Very Good Light Resistance

### Vinyl Pre-Catalyzed Clear Sealer – FL5314000

Becker Acroma Vinyl Pre-Catalyzed Sealer is a vinyl-modified lacquer sealer. Developed for use on natural or stained interior wood surfaces, this sealer is one-component and pre-reduced. The sealer has excellent wetting properties for problem-free applications, and the vinyl technology will help improve the moisture resistance of any lacquer finishing system. The Vinyl Pre-Catalyzed Sealer does not contain any phthalate plasticizers, and is free from methanol.

- Easy to Apply
- Vinyl Modified
- Excellent Wetting Properties
- Improved Moisture Resistance

### Mini Pre-Catalyzed 192 Clear Sealer – NL5201000

Mini Pre-Catalyzed 192 is a one-component clear sealer for use on natural or stained interior wood surfaces. Pre-reduced and is ready-to-spray, the Mini Pre-Catalyzed 192 is fast drying and has excellent sandability characteristics. A perfect foundation for Becker Acroma pre-catalyzed clear topcoats, it does not contain any phthalate plasticizers and is free from methanol.

- Easy to Apply
- Ready to Spray
- Excellent Sandability Characteristics
- Dries Fast
